

DLIMIT.CH · STEP BY STEP

Order your custom-printed belt barrier posts online

This guide takes you from configuration through to delivery. At each step you will see what appears on screen and what to do. Allow about 10 minutes for your first request.

- 1 Open the configurator**
On dlimit.ch, in English.
- 2 Choose your products and quantities**
Post colour, options, number of posts (from 6).
- 3 Add your logo**
Simply upload your file: **we do the layout for you.**
- 4 See the total price and download your quote**
Enter your postcode: shipping and customs clearance are calculated instantly.
- 5 Request the pro forma invoice**
A short form. No payment at this stage.
- 6 Approve the proof, pay, receive**
Production after your approval and payment, delivery in about 10 working days.

NO NEED TO DO THE LAYOUT YOURSELF!

Just send us your logo: we place it on the belt and send you the digital proof for approval. The preview tool is entirely optional.

Have these ready before you start

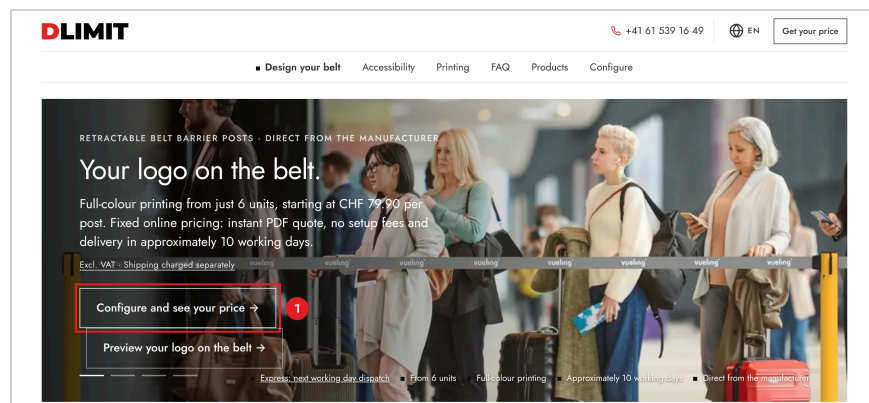

- Your logo, ideally as a vector file (PDF, AI, EPS or SVG). A good-quality PNG or JPG is fine to get started.
- The postcode of the delivery address, to calculate shipping.
- If possible, your UID / VAT number (CHE-...).

Dlimit sells exclusively to businesses and professionals. The screenshots in this guide show a fictitious example ("LIMMAT", "Example AG").

STEP 1

Open the configurator

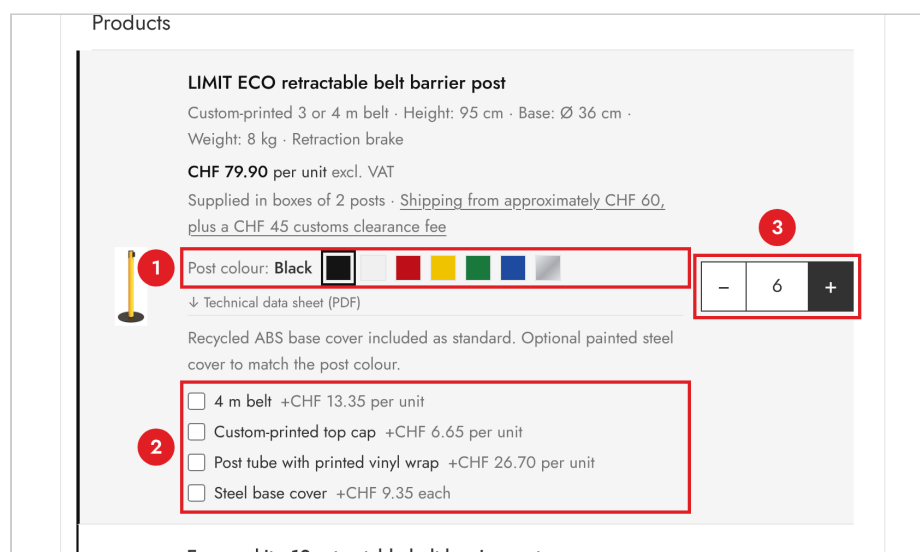

Go to **dlimit.ch** and check that the language shown at the top right is **EN**. Click **“Configure and see your price”** ¹. The “Get your price” button at the top of every page takes you to the same place.

The dlimit.ch home page.

STEP 2

Choose your products and quantities

- ¹ **Post colour.** Click a colour swatch. The name of the selected colour is shown in full.
- ² **Options.** Tick whatever you need: 4 m belt instead of 3 m, custom-printed top cap, post tube with printed vinyl wrap, steel base cover. The extra cost per post is shown alongside.
- ³ **Quantity.** Click **+**. The first click goes straight to 6 posts, the minimum order; after that the number goes up in steps of 2, as the posts are supplied in boxes of two.

Further down you will also find the **Express** posts (from stock, minimum 10, unprinted, dispatched the next working day after payment), the **wall-mounted belt barrier** and the **sign holder**. They are ordered in the same way.

STEP 3

Add your logo

JUST SEND YOUR LOGO: WE DO THE REST

You do not need to use the preview tool. Upload your file (button 1) or send it by email: we lay out your belt and send you the digital proof for approval before anything is produced.

How would you like to design your belt?

Create your own design and preview the result
Upload your logo and preview the layout along the full 3 or 4 metres, on both sides. Then return here with your design ready.

A [Preview your logo on the belt →](#)

OR

Send us your logo and we'll prepare the layout
Simply provide your logo and preferred background colour, and we'll prepare your digital proof.

Simplified preview. Your digital proof will show the final layout.

1 **Upload your logo**
PNG with a transparent background, SVG, PDF, AI or EPS.

2 **BELT BACKGROUND COLOUR**

#FFFFFF

Choose your preferred colour. If your artwork already includes a background, leave this setting on white and let us know below.

3 **BELT DESIGN INSTRUCTIONS**
Your brand's Pantone reference, where you would like the logo placed, how often it should repeat...

- 1 Upload your logo.** Click and choose the file on your computer. A preview of the belt appears straight away above.
 - 2 Belt background colour.** Click a colour. If your artwork already has its own background, leave it on white and say so in 3.
 - 3 Belt design instructions.** Optional: your brand's Pantone reference, spacing between logos, a different design on the back...
- A Want more control?** The optional preview tool shows you the whole belt, front and back. See next page.

Which file?

Ideal: PDF, AI, EPS or SVG (vector). Fine to get started: PNG with a transparent background or high-resolution JPG.

No file to hand? Choose "Continue without a logo" and send it later to info@dlimit.ch.

The preview is simplified. The final layout is shown on the digital proof, which we send you free of charge.

OPTIONAL

Preview your logo along the whole belt

Accessed via the “Preview your logo on the belt” button, this tool shows the whole belt, front and back, to scale. You only need it if you want to decide the size or spacing of the logos yourself.

OPTIONAL: YOU CAN SKIP THIS PAGE. WITHOUT THIS TOOL, WE LAY OUT YOUR LOGO FOR YOU.

Settings on the left, live preview on the right.

00 · Belt length	3 m or 4 m.
01 · Printed sides	One side or both sides. Both sides are printed at no extra cost.
02 · Design layout	“Smart” (recommended) works out the spacing and offsets the back so the logos do not show through.
03 · Belt background colour	A colour from our colour chart.
04 · Upload your logo	PNG with a transparent background, SVG or JPG.
05 · Save or send	“Order with this design” takes you back to the configurator with your design ready.

- This quote is valid for 30 days. Shipping is confirmed on the proforma invoice.			

The downloaded PDF quote, valid for 30 days.

STEP 5

Request the pro forma invoice

Below the summary, click **"Request a pro forma invoice →"**. The form opens, with your order already shown on the left.

PRO FORMA INVOICE

Request your pro
forma invoice.

We sell exclusively to businesses and professionals.

We check your logo and send you a digital proof and a pro
forma invoice. Production starts after your approval.

4

Request a pro forma invoice

No payment is required at this stage. We send you a digital proof and a pro forma invoice, and
production only starts once you have approved the proof and accepted the invoice.

- 1 Email address** (required): this is where we send the digital proof and the pro forma invoice. Please also fill in the company, contact person, phone number and address: it saves back-and-forth.
- 2 Postcode** (required) of the delivery address.
- 3 The two tick boxes** (required): you are ordering on behalf of a business, and you accept the terms and conditions and the privacy policy.
- 4 “Request a pro forma invoice”** sends your request. **No payment is required at this stage** and the request does not commit you to anything.

STEP 6

After your request: proof, payment, delivery

A “Request received” page confirms that your request has been sent. Here is what happens next.

Request received

Thank you. We have your request and your files. Sending the request does not commit you to any payment: production starts when you approve the digital proof and pay the proforma invoice.

1 We check your design

We make sure the file will print well and write to you if we need anything.

2 Digital proof and proforma

We send you a preview of the belt and the proforma invoice, with shipping already calculated.

3 Production and delivery

Once you approve the proof and pay, production takes 3–5 working days and delivery about 10 working days in total.

1 · Check	We check your file and write to you if anything is missing.
2 · Proof and pro forma	Within 48 working hours at most, you receive the digital proof (how your belt will look) and the pro forma invoice by email, with shipping confirmed.
3 · Approval	You approve the proof in writing by replying to the email. Need a change? Let us know and we will send you a new proof.
4 · Payment	By bank transfer, as per the pro forma invoice. Nothing is produced before your approval and payment.
5 · Production	3–5 working days at our factory in Mataró, near Barcelona.
6 · Delivery	About 10 working days in total after approval and payment.

On delivery: Swiss VAT

The goods come from Spain, so we invoice without Spanish VAT. When they enter Switzerland, the carrier pays the 8.1% import VAT to customs on your behalf and then passes it on to you, either on delivery or on a separate invoice, depending on the carrier.

This is the normal procedure for all goods imported into Switzerland. If your business is VAT-registered, you can reclaim it as input tax. Customs clearance (CHF 45) is already included in our invoice.

FREQUENTLY ASKED QUESTIONS

Answers to the most common questions

What is the minimum order quantity?

Six posts, packed two per box. No setup or design fees, and the unit price is the same whatever the quantity.

Can I have a different design on each side?

Yes, at no extra cost. Mention it in the instructions: both designs will appear on the digital proof.

I do not have a vector file. Is that a problem?

No. Send what you have (PNG, JPG). We check the file and tell you if we need a better version.

Are prices excluding VAT?

Yes, all prices are in Swiss francs, excluding VAT. Swiss VAT of 8.1% is collected by the carrier on delivery. No import duty applies.

Can I order as a private individual?

No, we sell exclusively to businesses and professionals.

Can I reorder the same belts later?

Yes. We keep your design on file: just write to us with the quantity.

I just need a price for my budget.

Configure your order and click "Download your quote (PDF)". The quote is instant, valid for 30 days and requires no personal details.
